Tue-Fri 10-12:30 + 14-18 . Sat, Sun 15-19

© Sarker Protick

"Think we must" says prominent quote of Virginia Woolf. However, thinking is merely a first footstep, since fundamental changes appear only if thoughts are carried into actions. Therefore, what can we do beside thinking to save our planet? The exhibition is a showcase of nine artists whose work digs deep into political and environmental narratives defining our global world. With strength and determination, they make work that unflinchingly challenges social structures and depict abuses of power on our natural environment.
